**4** **Introduction**  
MZ Architects achieves an unusual mix of scale, sensitivity and the sublime to work intelligently at a large scale

**6** **Urban Design and Masterplanning**  
By burrowing into the cultural history of cities' development, the practice creates designs that are place appropriate and innovative

**10** **High Rise**  
Form-making on a massive scale lies behind the creation of tall buildings that have genuine presence, but are not wilful

**20** **Hotels**  
Though hotel guests tend to care most about the interior, external architecture should also be memorable

**30** **Stadiums**  
Using desert materials makes it possible to create stadiums that work with rather than fight their context and environment

**36** **Profile**  
Since its founding in Qatar in 2002, MZ Architects has grown into a practice pushing the boundaries in a number of fields
